

# PATENTED TECHNOLOGY STILL NO. 1

## Phoenix Hydro-X 50Hz - Xtreme Xtractor

### SUPERIOR WATER EXTRACTION TOOL

The Phoenix 50Hz Hydro-X Xtractor is the most effective and efficient extraction tool on the market today. The Hydro-X Xtractor's patented Suction Roller provides both suction and compression — forcing water to the surface then sucking the water away, not allowing the water to be reabsorbed back into the carpet and pad. No other extractor today can pull as much water from the carpet and pad as the Hydro-X Xtractor.

The Hydro-X Xtractor is steerable and self-propelled with variable speeds. One restoration technician can operate the unit and extract a 110 square meter (1200 sq. ft.) structure with carpet and pad in under 2 hours!

Industry experts all agree that it is easier to extract water out of a structure than it is through dehumidification and air movement. If you want to cut a DAY(S) off of your drying process, a Hydro-X Xtractor is a necessity.

## FEATURES

- Patented suction roller
- Self-propelled with positive chain drive
  - no belts to break or adjust
- Variable speed for every carpet and pad condition
- Extracts in both forward and reverse
- Rust and corrosion resistant stainless steel construction
- Built to withstand daily use
- Heavy duty electricals
- One year warranty on parts and labor
