How To Activate Your Smart Equipment (Except Smart Dehumidifiers)

In this guide, you will learn how to:

- Wake up your smart equipment from “Shipment Mode”.
- Add it to the DryLINK® Pro app.
- Confirm the smart equipment is ready.

Before you start:

- You must have downloaded the DryLINK® Pro app and created an account.
- Keep the device within 10 feet of your phone during setup

Step 1:

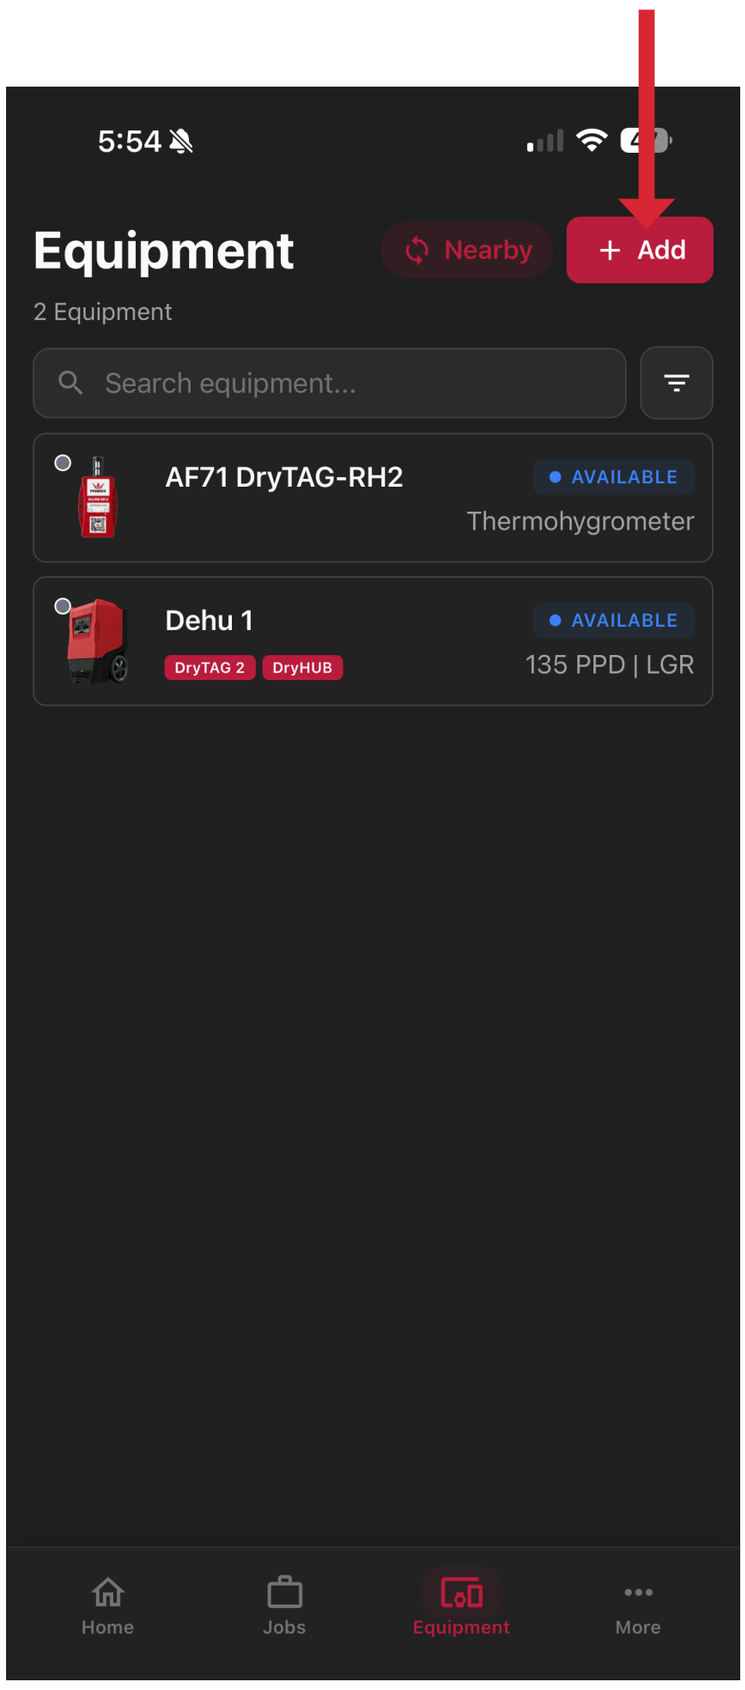

Remove Smart Equipment from Shipment Mode:.

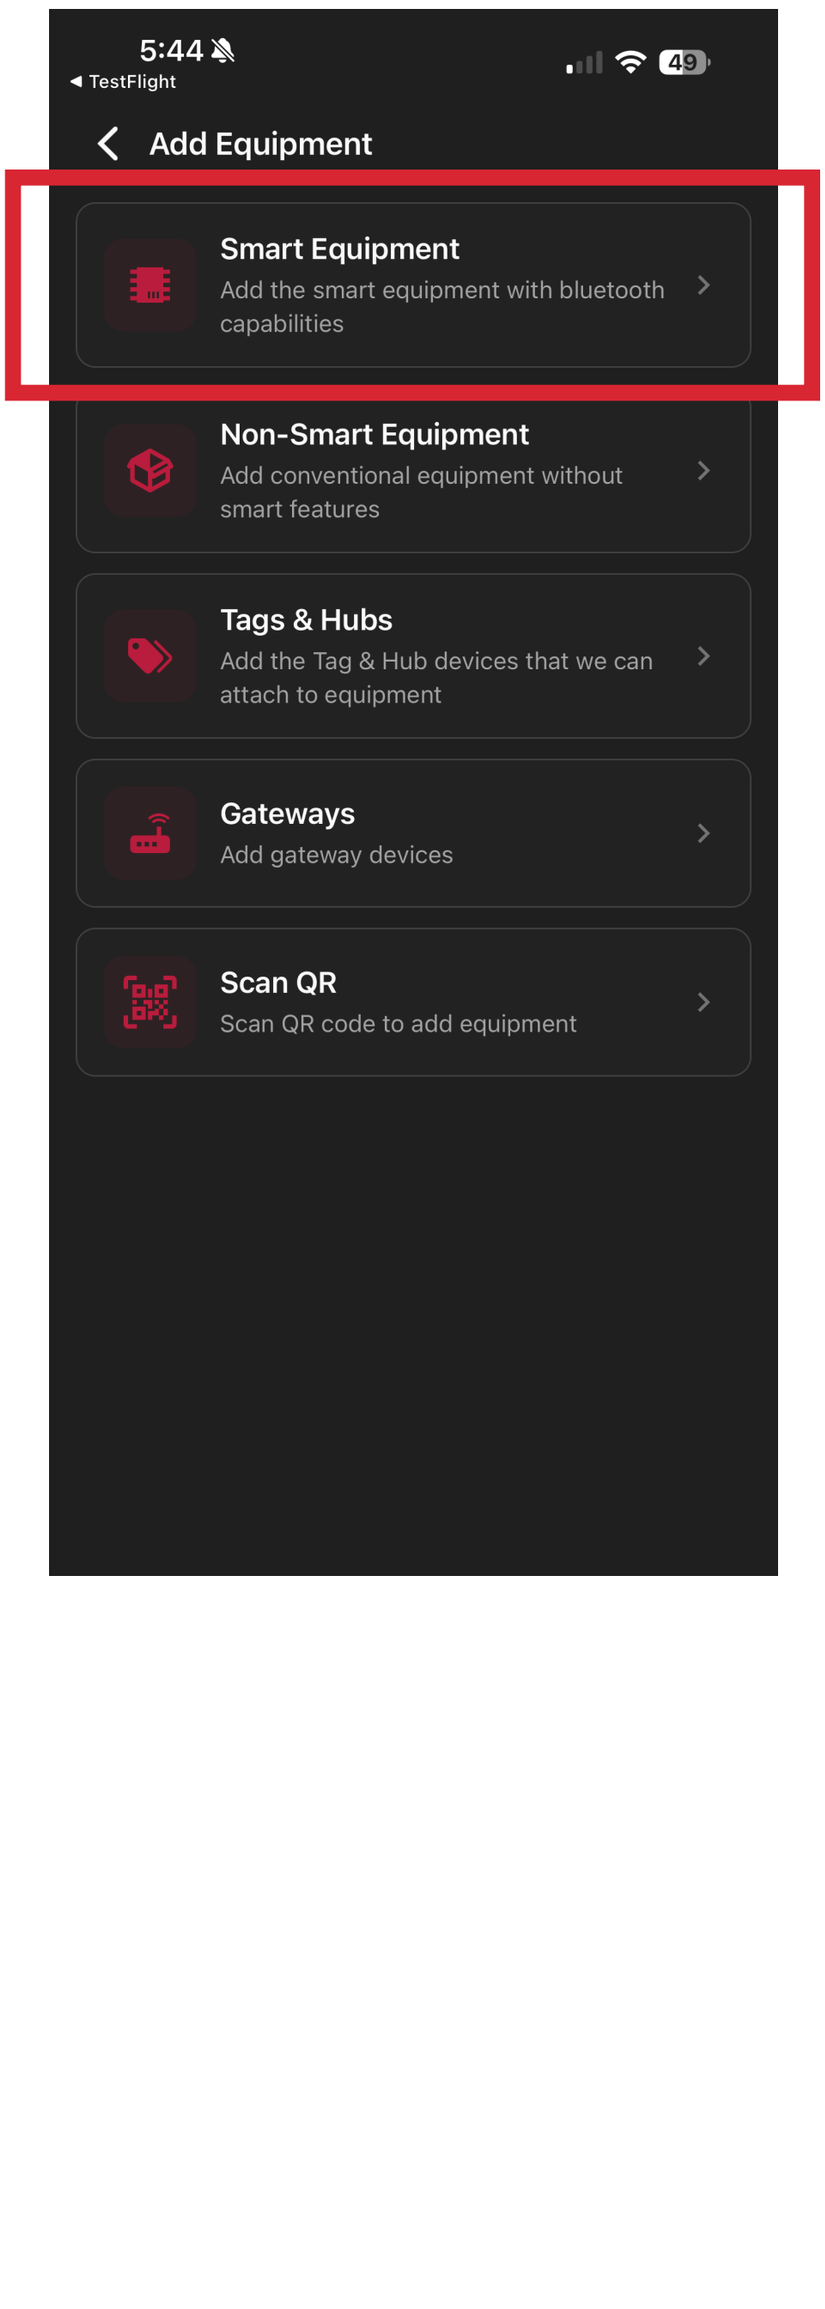

- The equipment ships in “Shipment Mode” to conserve battery life.
- While in “Shipment Mode”, the equipment can only be discovered by the app when you are within 10 feet. If you do not see the smart equipment under **New Units**, move within 10 feet and refresh the list.

Step 2:

Add Smart Equipment to DryLINK® Pro:

- Open the DryLINK® Pro app. Then go to the **Equipment** section and select **+Add**.
- Select **Smart Equipment**.
- Find your smart equipment in the list and select it.
- Select **Add Equipment**.
- Change the name if needed, then select **Add Equipment**.

Confirm the Device is Ready for Use:

- You will see a notification saying that the device was removed from shipment mode and another one saying that it was added to your inventory.

Step 3:

To start using your smart equipment, you must have selected one of the following subscriptions.

DryLINK® Pro **JOBS**

OR

DryLINK® Pro **ALL ACCESS**
